SUBJECT: Notes on New Building Status

There have been some developments which you may find of interest.

1. Requirements for additional space on the Headquarters compound have been initially sized at about 800,000 net sq. ft. for both people and machines. For comparison, the current Headquarters Building has about [REDACTED]

3. Using these figures, an architectural firm is developing alternate site solutions to satisfy consolidation. They will propose up to a half dozen alternatives which will identify the number and location of new buildings.

4. The largest environmental issue that must be resolved is how the added traffic will be accommodated.

5. Final site selection by the Agency should be completed by 1 September.

6. A decision by the National Capitol Planning Commission on the selected site plan is scheduled for early January 1982.

7. Decisions on reprogramming funds in FY-82 and 83 to support subsequent architectural and engineering design efforts have not yet been made.
